

Glen Urquhart Childcare Centre November Newsletter

This Term...

We are looking forward to a busy few weeks at the centre, please check our important date section below to see what is on. This term we have been working with students from the Glenurquhart High school to create exciting experiments which are tailored to the children's learning level and interests. We promote Science, technology, engineering and maths (STEM) in our setting to help develop creativity, critical thinking and problem-solving skills.

Follow our learning experiences on our new website and blog - www.glenurquhartchildcarecentre.com

ELC Updates

Look out for changes in our nursery rooms and around the centre: the staff and children have been working hard to transform our home corner areas and after

feedback from the children we have also decided to move our smartboard into the Oak room, providing more access/space and more opportunities for interactive games and learning.

We are delighted to have Kerry Postma on placement while she is studying for her HNC in childhood practice. There is a requirement for students to observe children and select a target child however this will be done in consultation with their placement mentor to ensure that the preferences and privacy of individuals are respected.
